

KARL-CHRISTIAN WOLFF-INGHAM

Product Design & Innovation Leader

Atlanta, GA | 404.725.0417 | kcswoff@gmail.com | [LinkedIn](#) | [Portfolio](#) (pass: kcaccess26)

SUMMARY

Multidisciplinary user experience and product design leader, engineering undergrad, design post-grad, and an executive MBA from Brown and IE Business School. Twice transformed nascent design functions into enterprise organizations: SunTrust/BB&T through the \$66B merger that formed Truist, then Genuine Parts Company, where a research-led redesign of the \$8B B2B and retail commerce platform delivered an A/B-validated \$32.8M in attributed revenue (2025). Hands-on AI-native design and product work: shipped an agentic UX tool and led the first GPC team outside its dedicated AI organization to operationalize AI tooling in early 2025).

AI IN PRACTICE

- **Built:** [Designer](#) an experimental agentic UX harness. [Unreel Recipes](#) – an ongoing experiment in multi-agent autonomous coordination. Hands on showcase - designed and built [Org Chart Studio](#) SaaS.
- **Published:** Essay series on agentic, AI-first product design (Substack and LinkedIn): “[The Visible Layer](#),” “[The New Rules of Design and Code](#),” “[The Agentic UI Landscape](#).”

PROFESSIONAL EXPERIENCE

GENUINE PARTS COMPANY (GPC), Atlanta, GA

Jan 2023 – May 2026

Senior Director, Head of Product Design & Research

- Scaled the UX organization from 8 to 30+ (Design, UI, Research, Design Engineering); onshore/offshore model (Atlanta + Krakow); ~\$6M budget. Elevated UX from service tier to business-critical capability. C-Suite reporting.
- **Delivered \$32.8M in design-attributed revenue (2025):** led the research-driven redesign of the \$8B unified ecommerce platform spanning B2B professional (NAPA ProLink) and retail channels: an A/B-validated 7% add-to-cart improvement, built on the “Ways of Finding” strategy drawn from two years of research. Implemented a balanced-team operating model with dedicated design and research in OKR-aligned pods.
- **Led Design System engineering** and built “Bolt,” GPC’s first design system adopted cross-regionally (North America, Europe, Asia Pacific), reducing design-to-engineering handoff friction.
- **Led design** of an AI-native, agentic SaaS platform for automotive repair shop management at NAPA AutoCare.
- Led the first team at GPC outside its dedicated AI organization to adopt and operationalize AI design/development tools (v0 adopted early 2025).

WOLFF CONSULTING, LLC, Atlanta, GA

Jun 2021 – Jan 2023

Founder & Principal Consultant

- **Authored the Future of NAPA AutoCare blueprint** for the GPC CIO: including AI-assisted repair diagnoses (Aug 2022, three months before ChatGPT launched); led to recruitment to execute the vision at GPC.
- Additional clients: FitRadio, Comscore, Gold’s Gym. Concurrently co-founded Elysium Applications and shipped Talk Droid to the iPhone App Store.

TRUIST FINANCIAL, Atlanta, GA

Dec 2019 – Jun 2021

SVP, UX Design & Research — Commercial Banking and Small Business

- Post-merger build-out, scaling organization to ~50 across UX, UI, and Research; led design and research across Commercial Banking, Small Business, Wealth Management rebuilding those applications for the merged bank.

SUNTRUST BANKS, Atlanta, GA

Jul 2017 – Dec 2019

SVP, UX Design & Research

- Inherited a 10-person team; established UI and UX Research as new functions and scaled the design organization to ~25 by the December 2019 merger; ~\$5M budget.
- **Drove the Future of Banking Strategy engagement** (Jobs-to-Be-Done at business-unit level) whose three banking-future scenarios CEO Bill Rogers called “instrumental” to SunTrust’s merger strategy; rebooted the Innovation Accelerator Studio around Customer Journeys and Strategic Foresight; founded the Service Design practice.
- Integrated voice-of-customer (design + research) into the bank’s Scaled Agile Framework (SAFe) adoption, modernizing the software development lifecycle.
- Third-party validation: Javelin ‘Overall Category Leader’ (Online & Mobile Banking) within 12 months; Mitek mobile deposit rose 6 places to 5th in the U.S.; developed Andy Vitale (later Head of Design, Rocket Mortgage).

SPARKS GROVE, Atlanta, GA

Sep 2014 – Mar 2017

UX Design Practice Leader, Experience Design — Agency division of North Highland Consulting

- Won \$2.7M+ in new business (Delta Air Lines, including news.delta.com, still live; Coca-Cola; Disney; Universal; The Home Depot); led the agency's shift to agile/lean product as de facto product practice lead; National Impact Award for the Human Experience Design repositioning.

TURNER BROADCASTING (Time Warner), Atlanta, GA

Apr 2005 – Mar 2014

VP, Product Management — upwave.com (Oct 2012 – Mar 2014)

- Led product and UX for Turner's pre-Apple-Watch digital-health venture linking wearables to personalized content; grew upwave from 0 to 1M monthly uniques in 8 months (recirculation 5% to 24%). Webby nomination.

Senior Director, Strategic Product Development (Dec 2008 – Oct 2012)

- Built Turner's interactive sync to TV platform: two granted patents (co-inventor) + Emmy contribution (Team Coco). Created CNN "Notify" push notification platform (ROI in 4 months); led on-air AR for CNN elections coverage; designed the World Cup Twitter Buzz (RTS Innovation Award).

Director, Games & Entertainment Technologies (Apr 2005 – Dec 2008)

- Created the first U.S. mobile AR apps (NBA, Cartoon Network) with Georgia Tech, pre-iPhone; brokered Perceptive Pixel multi-touch into CNN (the Magic Wall); academic partnerships with Dr. Ian Bogost (CNN.com news games) and Dr. Richard M. Ryan (Self-Determination Theory).

Earlier (UK, 1991–2005): *Ensequence (Interactive TV designer & developer). Two Way TV (designer & producer); first interactive-TV multiplayer game service UK; BAFTA Interactive nomination – Sports category.*

EDUCATION**Executive MBA, Brown University & IE Business School (joint program), USA & Spain**

2019

*Focus: Strategy and innovation.***Human-Centered Computing Systems, University of Sussex, UK**

1994

*Focus: AI & Intelligent Tutoring Systems. Apple Design Project award.***BSc. (Hons) Computer Science, University of Brighton, UK**

1993

- **Dissertation "Colonizing Cyberspace" (March 1993):** Laid out theory for globally networked information and communities. Technical project: extended HyperCard's HyperTalk with AI artificial neural-network (back-propagation – a precursor to today's Large Language Models).
